GENERAL PRACTICE

Plastics education series – part one: Burns management in primary care (Hybrid event)

HOBART – Tuesday 7 July

Primary Health Tasmania, Level 2/85 Collins St, Hobart
6pm registration for 6.30pm-8pm event

Online attendance

6.30pm-8pm

Primary Health Tasmania invites GPs and primary care clinicians to part one of our plastics education series. This event will support GPs and primary care clinicians to recognise, assess and manage common burn presentations seen in the primary care setting, including criteria for referral to a specialist burns or plastics surgery service. This will be the first in a two-part series focusing on plastics in Tasmania.

The event is RACGP and ACRRM approved for 1.5 hours of Educational Activities.

GENERAL PRACTICE

Cardiology at the interface of primary and secondary care: Structural heart disease

Webinar

Wednesday 8 July

6.30pm-8pm

This session, facilitated by Primary Health Tasmania, will provide an overview of the evolving landscape of structural heart disease services in Tasmania and their growing importance in the context of an ageing population. It will explore the role of the primary care physician in the early identification and ongoing management of valvular heart disease, recognising its presentation as both an acute and chronic condition. The session will also highlight practical approaches to assessment, monitoring and referral, supporting timely intervention and improved patient outcomes.

This event is RACGP and ACRRM approved for 1.5 hours of Educational Activities.

PRACTICE MANAGERS

Practice managers networking breakfasts

NORTH – Wednesday 29 July

7.30am-9am

NORTH WEST – Thursday 30 July

7.30am-9am

SOUTH – Wednesday 5 August

7.30am-9am

These networking breakfasts bring together practice managers to network, share knowledge, learn about relevant primary health programs/projects, and discuss issues related to their work.

MULTIDISCIPLINARY

Supporting patients living with behaviours in dementia in regional areas: A clinical approach (Hybrid event)

BURNIE – Wednesday 29 July

OneCare Umina Park, 22-24 Mooreville Road, Burnie
6pm registration for 6.30pm-8pm event

Online attendance

6.30pm-8pm

Join Primary Health Tasmania for a free hybrid education event for GPs, nurses and medical practitioners in Tasmania, featuring Geriatrician Dr Katie French.

Through case studies, Dr French will share practical approaches to supporting behaviours associated with dementia in both community and residential aged care settings. Participants will gain insight into available regional resources and services, from diagnosis pathways through to ongoing clinical support following diagnosis.

Both case studies will also explore when and how to prescribe and when not to prescribe, including antipsychotics and cognitive enhancing medications. In addition, attendees will receive practical guidance on assessing capacity, supporting decision-making, and navigating restrictive practice considerations in dementia care.

This event is pending RACGP and ACRRM approved for 1.5 hours of Educational Activities.

There is no cost for participation in these events, thanks to funding from the Australian Government under the Primary Health Networks program
